OBSIDIAN

Clifton, Cape Town

Don’t be fooled by its rock-hard name, Obsidian is a master class in the lightness of living in nature

What makes Obsidian such a remarkable villa isn't its panoramic views, its grand, double-volume spaces, or even its state-of-the-art finishes. It's the way that sunlight reflected off the ocean filters through the timber screens, how the mood changes from deeply cocooning to almost cloud-like as you move through the villa, and the rare privacy that feels almost impossible. These are the quiet moments that await at Obsidian.
